## OBJECTIVE

To leverage my web development skills and academic knowledge in designing and building responsive, scalable, and user-friendly applications, while continuously growing in a collaborative software engineering environment.

## EDUCATION

<b>Vishwakarma Government Engineering College</b>	Sep 2022 – May 2025
<i>Bachelor of Engineering in Information Technology, 8.4 CGPA</i>	<i>Ahmedabad, Gujarat</i>
<b>Ranchhodlal Chhotatal Technical Institute</b>	Aug 2019 - June 2022
<i>Diploma Engineering in Information Technology, 9.57 CGPA</i>	<i>Ahmedabad, Gujarat</i>
<b>Saraswati Vidyalaya</b>	June 2018 - June 2019
<i>Secondary School Certificate, 80%</i>	<i>Ahmedabad, Gujarat</i>

## INTERNSHIP & TRAINING EXPERIENCE

<b>Trainee Business Model Developer</b>	May 2025 – Nov 2025
<i>StayInFront India Pvt Ltd.</i>	<i>Ahmedabad, Gujarat</i>
– Analyzed requirement forms and prepared test setups for process-scaling activities under Scale Lab Manager	
– Executed performance tests across multiple servers, monitored runs, and documented comprehensive results	
– Identified performance gaps and optimization opportunities through comparative analysis of test cycles	
<b>Web Development Internship</b>	Jan 2025 - Apr 2025
<i>Radixweb Software Solution Pvt. Ltd.</i>	<i>Ahmedabad, Gujarat</i>
– Developed and maintained responsive web applications using Angular, TypeScript, JavaScript, and Bootstrap	
– Gained hands-on experience with full-stack technologies including HTML, CSS, jQuery, SQL, Git, and GitLab	
– Collaborated with development teams on code reviews and contributed to production-level projects	
<b>Frontend Web Development Internship</b>	June 2024 - Aug 2024
<i>IBM SkillsBuild (Internship Program)</i>	<i>Remote</i>
– Built responsive websites using HTML, CSS, and JavaScript with focus on user experience and performance	
– Completed comprehensive training on modern frontend development practices and industry standards	

## PROJECTS

### Parking Management System – SSIP Project | *Android, Java, Php, MySQL* / [Link](#)

- Developed Android app for real-time parking slot monitoring, reservation, and payment processing
- Engineered backend system with PHP and MySQL to manage parking data, slot availability, and transactions
- Optimized parking space utilization through efficient allocation algorithms and user-friendly interface

### Employee Management System Mini Project | *HTML, Bootstrap, TypeScript, Angular* / [Link](#)

- Built full CRUD operations interface using Angular framework with component-based architecture
- Implemented client-side data persistence with LocalStorage and form validation with TypeScript

### Flight Booking System | *HTML, CSS, Bootstrap, JavaScript, LocalStorage* / [Link](#)

- Created responsive booking interface with Bootstrap 5 Carousel and custom CSS for enhanced UX
- Focused on clean, maintainable code with emphasis on responsive design and cross-browser compatibility

### Human Resource Management System Project | *HTML, CSS, TypeScript, Angular, C#, MySql* / [Link](#)

- Built full CRUD operations interface using Angular framework with component-based architecture
- Implemented client-side data persistence with LocalStorage and form validation with TypeScript

## TECHNICAL SKILLS

**Languages:** C, Java, JavaScript, TypeScript, SQL, HTML, CSS

**Frameworks & Libraries:** Angular, Bootstrap,

**Tools & Technologies:** Git, GitLab, GitHub, Android Studio, Visual Studio Code, SQL Server, MS Excel, MS Word

**Database:** MySQL, SQL Server

**Core Concepts:** Data Structures & Algorithms, DBMS, Object-Oriented Programming, Web Development
